

How can I find reliable Chinese suppliers?

- There are more than 500 integrated mills and 1200 rolling mills in China. Some mills are equipped with state-of-the-art facilities but most of them are to fit local requirements without much quality awareness.
- Over 400,000 traders are selling worldwide. Many of them don't exactly know your requirements and would give you an estimated offer.

How about **Alibaba**?

- As you may find out, most of sellers on Alibaba , if not 100% , are traders.
- The sequence of the suppliers is based on how much they pay.
